COVID-19 Dining Guidelines

This last year has been a huge challenge for us, for our staff, the musicians who light up our stages, for our friends, our families and no doubt for you. But, we're open again and so happy to get back to doing what we love - serving and entertaining you; our valued guests.

The safety, health and welfare of our community has always been, and continues to be, our ultimate priority. Please refer to the following guidelines for measures we are taking to ensure we are all safe.

As we reopen our restaurants in accordance with the CDC, City and State regulations, we have taken the time to implement new operational measures to keep you and our staff safe and healthy. Some of these measures include:

- All guests must wear masks at all times, except when seated and/or eating. Please wear your mask whenever possible.
- All tables will be spaced at least 6 feet apart.
- A maximum of four guests may be seated together at one table.
- All staff members are required to wear a mask at all times and are provided with replacement masks as often as needed.
- Guest facing restaurant staff members are always required to wear a face shield, in addition to a mask.
- Our kitchen staff and cleaning staff are required to use durable Nitrile gloves while cooking and cleaning or during regular maintenance.
 They also all wear masks at all times.

- All restaurant team members are required to take their temperature before each shift. Employees who have a fever or are exhibiting any COVID-19 symptoms will be sent home immediately.
- Managers will oversee hourly sanitation of the following areas: order pickup areas, restrooms, common employee or guest areas of high traffic, doorknobs, door panels, phones, and employee stations.
- All restaurant team members are required to wash hands regularly throughout service and for at least 20 seconds, using hot water and antibacterial soap.
- Hand sanitizers are set up at all server stations and at our entrance.
- Our menus are single-use and disposable. Guests also have the option to use their phone to access menus online via a QR code at their table.
